What services did Revize perform for you?	We launched with Revize more than 10 years ago and have gone through 2 redesigns with Revize.	Revize did a complete rebuild of our internal website (intranet) and our external website (MyPasco.net). We were under a very tight timeline as our sites needed to be completed in about 5 months. Revize did an amazing job for us under this timeline. Our website has 57 lines of business and was a huge project to take on in that amount of time, but they nailed it!	New website in 2013 and 2018
How would you rate the quality of Revize's work?	I rate Revize as a 9. Their designs are unique and the coding is extremely mobile enabled. Updating the site is also easy and intuitive.	10/10 Everything from the initial design to project launch went off without any issues.	10/10
How responsive was Revize during the project, as well as afterward?	Revize is very responsive. If anything, I have slowed them down.	Revize has been great to us. We had a great experience with them throughout the project and even after the website official launch on January 1, 2024. They have always been responsive to us for any requests even after completion. The team is quick and very knowledgeable.	Very responsive

Did the firm meet all deadlines?	Revize has met deadlines.	The tightest deadline we had was our launch date for the new website which was within a 5-month time frame. We started our project in mid-August of 2023 and launched Dec 28, 2023 They had no problem meeting the launch date of Jan 1, 2024.	Yes
Would you consider Revize for future projects/services?	I definitely will use Revize in the future.	Yes. Revize has been awesome to work with. We have not had any issues with them and their customer service has been great. The response time for any issues that came up after launch has been quick. I would highly recommend Revize for your website.	Yes
