I have wanted wished for that Lake Forest to have full fiber independent of any exclusive provider in this city for years, to stop the monopoly of cox and better serve the citizens we pay super high fees for what we get. Let us have the option of ANY provider can be selected thru the franchise being considered (should be a requirement to allow them to do network and prices should be fair and reasonable and not based on what other charges so we don't get touched "again" So they are a "switch" and make sure the franchise have a performance guarantee and or a buy out agreement for the city if issues comes up, not the antitrust monopoly we have now where majority of city forced to have cox if we need speed and throughout of data We need this city have full fiber with 500 mips or better.

Feel free to revise this for clarity
